

## DEMENTIA FRIENDLY BLUE RIDGE (DFBR)

**Dementia Friendly Blue Ridge (DFBR)** is a collaborative initiative to enhance awareness of what it means to live with dementia by educating community organizations, law enforcements, healthcare, places of worship, financial institutions, restaurants, businesses, libraries and beyond. This will help people with dementia so they can live, engage, participate, and thrive within our community.

DFBR's mission is to educate all sectors of the community so that they can understand and support people with dementia.

Once businesses and organizations are considered "Dementia Friendly" they will receive stickers to put on their windows and doors to show guests that they have a basic understanding of dementia.
